- Only use Autonics products that are available for SCM-US.
- Observe the rated voltage.
- To avoid malfunctions due to noise, do not place the unit close to a high-voltage power line.
- Proper application environment  
(Avoid following environments for unit to be used.)
  - Where severe vibration or shock exists
  - Where close to a strong alkali or strong acid
  - Where direct rays of light exist
  - Where near facilities generating strong magnetic forces or electric noise.
- Storage  
Keep the unit -20 to 60°C, 35 to 85%RH with avoiding direct rays of light. It is recommended to keep the unit package as it is.
- This unit may be used in the following environments.
  - Indoor
